

How to Disconnect from a Service on Plug-It with Android

- 1 From your home or any other tab select the services icon.

2

Then click on "Connected" for the service you want to disconnect.

Yeah that's all congratulation!

But even if Plug-It have disabled the service and removed all data about it, the service may still allow Plug-It to connect at anytime without any prompt. If you want to totally remove all authorization about Plug-It and your service please check the service help documentation.
